- Bird Houk Collaborative
 - MS Consultants
 - Jerome Township
Zoning Inspector

Overview and Experience:

As a Landscape Architect and Planner, Gary has accrued more than 23 years of experience in Land Planning, Visioning, and Landscape Design. He brings to the team extensive experience in managing diverse projects including writing long range comprehensive plans and zoning code updates, conducting project feasibility analysis, creating community and neighborhood plans and traditional urban and landscape design plans. He has managed and developed comprehensive master plans, community visioning projects, zoning code updates, traditional and sustainable design communities, public parks, commercial sites, and streetscapes. Gary has extensive community involvement experience and has worked with steering committees; city, village, and township officials; community focus groups; citizens, and charitable organizations. His personality and experience with both public projects and complex private projects provide Gary with the ability to work with a variety of different stakeholders to solicit input and then translate that input into a unique vision that generates excitement and consensus among the different groups.

SELECTED PROJECTS:

The Promenade, Evansville, IN

The Promenade is a 228 acre mixed use development located near I-167 in Evansville, Indiana. When complete, The Promenade will include a mixed-use town center, a variety of retail and commercial uses, office uses varying from small office to corporate headquarters, and a diverse mix of residential products. G2 Planning and Design has provided services ranging from conceptual design to construction documentation.

Ted Lewis Park Master Plan, Circleville, OH

The plan introduces an organized and strategic approach to renovating the entire park. We generated an updated program that unifies the City's needs and the public's desires. In addition to stakeholder meetings, G2 successfully managed over 80 public survey responses, 4 public meetings and 2 youth engagement sessions. The plan integrates public and private aspirations, and produced a strategic vision for the future.

Northgate Alliance, Pickaway County, OH

The Northgate Alliance is a partnership between Pickaway County, Harrison Township, the Village of Ashville, and the Village of South Bloomfield. The goal of this plan was to guide growth and economic development in the areas surrounding Rickenbacker and the US 23 corridor. The partnership had negotiated an Economic Development Agreement, and desired to follow that effort with a community wide comprehensive master plan to help guide the communities in making growth related decisions.

Hazelton Crossing

G2 Planning and Design was hired by the Southgate Corporation to revisit an existing zoning that had previously been secured on this ±100 acre site. Working with the client, the neighborhood and the City of Pataskala, G2 was able to re-plan the site to incorporate a greater mix of uses into a layout that integrates a large amount of open space and pedestrian connectivity.

Circleville/Route 22 Interchange

G2 was hired by the Pickaway Progress Partnership to develop a master plan for the interchange. The Route 22 Corridor in Circleville, Ohio builds on the Circleville Brand and creates a unique and dynamic entry that conveys pride in the city. The design evolved as the community was engaged to measure attainable objectives, evaluate impact, and identify the wants and wishes of the community. A key role of our firm was to define a phasing plan and assist the client in identifying potential funding options.
